

THNKs

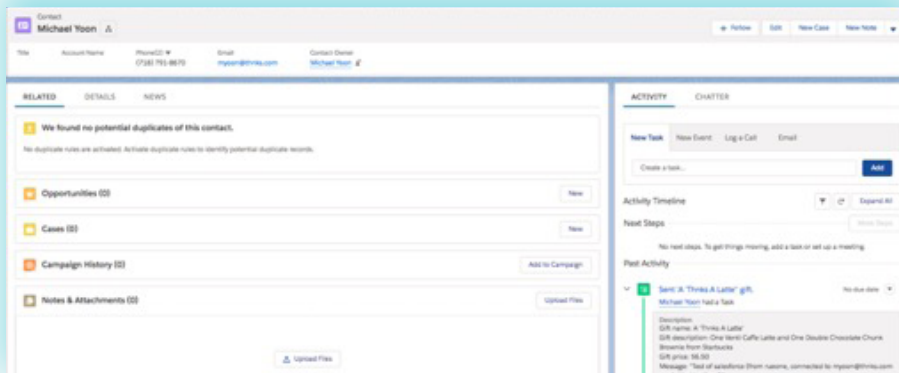

Now enterprise teams are able to connect Thnks through Salesforce!

THNKs INTEGRATION WITH SALESFORCE ALLOWS YOU TO

- Send gifts directly from within Salesforce with a click of a button
- Automatically log gift sends as activities in Salesforce and tag to a Campaign
- Get real-time delivery notifications
- Setup triggers or campaigns to auto send based on rules **(Coming Soon)**

OVERVIEW ON HOW EASY IT IS TO GET STARTED

- Each gift sent, adds a task to the Salesforce contact. If the contact does not already exist a new one will be created.
- To connect your Salesforce account, Thnks must first enable your enterprise profile and add your Salesforce organizationID.
- Once connected, information about sent gifts will import as activity related to that contact.
- The process requires minimal time from your SFDC administrator

Sending prospects and customers Thnks gestures of appreciation through Salesforce will save you time, so you can focus on what's most important, selling.
